Miscellaneous News

Mr. Albert Carlson, from Wainwright, arrived in Chinook Tuesday afternoon May 18th, bringing with him 250 sheep. Mr. Carlson purchased the Lensgraf farm, situated one half mile north of the village some four years ago. He intends making a Sheep Ranch of it.

We are glad to hear that Vincent Rideout has finished his exams at Magill University. He was successful in passing all his subjects with honors, being first in two.

He was fortunate enough to secure a position with the Northern Electric Co. of Montreal for the summer.

The Langford Ladies' Club met on Saturday at the home of Mrs. A. Osterberg. The next meeting will be held at Mrs. S. A. Wilton's home.

Miss Cora Elliott was a guest of Mr. and Mrs. Strand over the week end.

Mr. Carl Hodge returned from the Hanna Hospital on Wednesday, May 12th.

School Inspector Jonason, of Berry Creek S.D. held a meeting for the teachers of the surrounding district at Cessford, on Wednesday. Miss Elliott, of Langford district attended.

Mr. J. E. Cooley moved on Wednesday from his house on Railway Avenue, to the one formerly occupied by Mr. C. W. Rideout.

Mrs. A. V. Youell and little Jimmy returned from Calgary after a week end visit.

Norman O'Malley who has been at Vulcan for the winter, returned home on Wednesday.

Miss M. Milligan who had an operation on her hand, had the stitches taken out this week.

Gibson Bros. of Owen, we are in the Chinook district this week buying cattle.

Miss A. Levick, of Sibbald, has been engaged to work in the Hotel.

Miss Jean MacIntosh, of Calgary, but formerly of Chinook, graduated as nurse from the Holy Cross Hospital on Tuesday, May 18th.

Miss Steckle, of Yonags town was among the number of nurses in training whose name was among those who graduated on Tuesday, at the Holy Cross Hospital, Calgary.

Mr. and Mrs. P. Peterson, of Brooks, were Chinook visitors this week.

Royal Sponsors Gave Portraits

The Canadian Pacific, on land and sea, is proud of its close contact with Their Majesties, King George VI and Queen Elizabeth, whose portraits grace two of the company's proudest possessions, the Royal York Hotel in Toronto, and the 22,000 ton Atlantic liner Duchess of York. The illustration shows the autographed photograph of Their Majesties presented to Her Majesty and named for her. A similar portrait was presented to the huge Toronto hostelry.

Better Papers in the DOUBLE Automatic Booklet

Just the right pocket size, the DOUBLE automatic is the booklet everybody prefers.

FINEST QUALITY IMPORTED

Preservation Of Democracy

In these days of international strife and internal controversy, with protagonists of Fascism and Communism in the saddle in some countries and advocates of these and other isms striving to get the upper hand in other realms, the people of Western Canada have every reason to be thankful that they are citizens of a country where democracy reigns—a country in which the people themselves have the right to say what they want and in which the precious privileges of free speech and a free press still prevail.

Fears are frequently being expressed, however, that democratic countries are in danger of being overwhelmed by the fighting forces of dictatorial countries and that democracy is in peril of extinction. No doubt, there have been some grounds for such fears, but to-day the greatest danger to self-government comes from within rather than without.

It can be taken for granted that the great bulk of the people of this country are not prepared to surrender their liberties to any form of dictatorship, whether group or individual. The rights of free speech and freedom of action are cherished and there are few who would relinquish them in favor of benefits, imaginary or real, which would result from abandonment of the self-governing principle.

But if these rights and privileges are to be conserved, it is essential that the standard of education of the people be high and that they be of strong moral fibre, for in a democracy it is a sine qua non that the leaders of government must possess these attributes in high degree and it is also a fact that in these respects the leaders cannot be far in advance of the electorate who give them their authority or they will not be in office very long. So that in the final analysis the type of government that the people of a democracy get depends upon themselves and is no higher than they deserve. Hence, the importance of an enlightened, intelligent and unselfish electorate if democracy is to be preserved in an age of conflict between principles and desires.

This thought is very ably expressed by James Truslow Adams in the New York Times Magazine, as summarized by the Reader's Digest in the following words:

"Just as a despot may be benevolent or cruel, so a people which governs may be educated, wise, public spirited or the reverse" and, amplifying this idea:

"Both democracy and the vision of a very high standard of material living for all are new. Man is by nature selfish. He looks first to that of himself, his family and his group or class, rather than to that of all. Pressure groups arise. If such groups learn, as they have done, to use the machinery of democratic government more rapidly than they develop the social and moral spirit, that can alone sustain democracy, it is far from unlikely that they may destroy the finances of the State, pull down the entire structure, and in the resulting chaos and distress be willing to give up the dangerous and difficult adventure of self-government to any man who will promise a false security."

"There is also the race, which may be lost, between education and the increasingly complex demands on government. Few, if any, are the citizens, with their own affairs to look after, who can hold really competent opinions on such diverse topics as, say, money, price regulation, labor, agriculture, foreign affairs. In so far as a pure democracy tends to make rubber stamps of its representatives and to play on their fears for favors demanded, it will tend to make costly and perhaps fatal mistakes."

After expounding the theory that democratic government is more inefficient than a dictatorship, Mr. Adams goes on to say:

"On the other hand, the condition—material and spiritual—of the peoples to-day under a Mussolini, a Hitler or a Stalin does not indicate that the wisdom of one promises better conditions for all than the folly of the many. In what totalitarian State," he asks, "are the all-round conditions for a contented, wholesome, free and full life better than they are in the Scandinavian countries, the British Empire and the United States?"

"There are, however, these and other insidious mental and moral problems for democracies as for individuals. A man who does not bother to educate himself, who wants only easy money regardless of the consequences to others, who declines to work if he can be supported by somebody else, who thinks he has a right to all he wants, who thinks only of claims and not of duties, and so on, is not likely to be a success. Neither is a democracy made up of such."

Food Prices Climbing

Bureau of Statistics Reports Increase in Living Costs

The cost of living is climbing. The general index of the cost of living for Canada, computed by the Dominion bureau of statistics, was 82.2 in April as compared with 82.0 in March.

The retail price index of foods rose from 75.7 in March to 76.3 in April. Considerable gains were reported for a wide range of foods, including butter, lard, flour, bread, sugar, tea, codfish and several meats, although moderate decreases occurred for eggs, corn, potatoes, marmalade, jam and coffee. There were no changes of any importance recorded for other budgetary groups.

The cathedral at Toledo, Spain, has a sacramental shrine 12 feet high embellished with 260 statues of solid gold. The largest of these was made from the gold which Columbus took to Spain after his first voyage of discovery.

The common house spider has six spinnerets, each of which is covered with tiny spinning spools, and out of these come jets of liquid silk, hardening instantaneously on exposure to air.

"Empress," an Indian elephant, served on both sides during the Civil War. Both the South and the north used her for hauling supplies at Nashville, Tenn.

Had To Be Right

But Affixing Name To Sales Slip Took Some Time

A gentleman had completed his purchases, and the clerk, in filling out the sales slip asked:

"What is the name, please?"

"Jepson," replied our hero. "Chipson?"

"No, Jepson. Sixteen twenty-one West."

"Your first initial, please."

"Oh, K."

"O. K. Jepson."

"Excuse me, it isn't O.K. You didn't understand me; I said 'Oh'."

"O. Jepson."

"No. Rub out the O, and let the K stand."

The clerk began to look haggard.

"Will you please give me your initials again?"

"I said K."

"Pardon, you said O. K."

"I said 'Oh'."

"Just now you said K."

"Allow me to finish, I said 'Oh' because I didn't understand what you were asking me. I didn't mean it was my initial. My name is Kirby Jepson."

"Oh."

"No. Not O, but K. Here, give me the pencil and I'll write it myself. There, I guess it's O.K. now."—Annapolis Log.

By actual test, handwriting in pencil requires nearly five times as much light to be legible as writing in ink.

Farm Machinery Business

Staging A Comeback In Western Canada After Many Years

After seven lean years, the farm implement business is picking up in Western Canada.

The prairie farmer is once again in the market and making long-overdue replacement of farm machinery, implement company officials at Winnipeg said.

One major company reported 50 per cent. increase in sales in the first four months of this year compared with the same period last year. Other companies also reported considerable increases.

Prevailing high prices for wheat and optimistic crop conditions in Manitoba and parts of Saskatchewan and Alberta have led to the buying wave, it was stated.

The implement business has been in a slump since 1929 and for the past seven years farmers' demand for farm machinery in Western Canada has dwindled in face of poor grain prices, drought and general economic instability.

Special Type Of Glasses

Enable Wearer To Read Comfortably When Lying Down

"Recurrent spectacles"—glasses for invalids and others who have to lie more or less flat on their backs and who wish to read—were shown to the public for the first time at the British Industries Fair. These spectacles enable the wearer to see more or less at right angles to the ordinary line of sight. They contain a pair of prisms, which project incoming rays of light in such a way that the wearer can read a book held comfortably at arm's length, resting on the waist—in a position where it could not be read at all, ordinarily, without raising the head from the pillow. Corrective lenses for righting defects of eyesight in the usual way can be combined with the two prisms.—Science Service.

One Of Britain's Heaviest

Man Twenty-Four Years Old Weighs 448 Pounds

When Herbert Savage, of Rochester, England, who weighs 448 pounds, fell and broke his ankle, six men sent from the hospital had a hard time lifting him into an ambulance.

At the hospital he was given for his first meal a boiled egg and two slices of bread and butter, the regular diet. His girth is nearly 80 inches. He wears a collar about two feet in length. For his age, 24, he is one of the heaviest men in Great Britain.

Last year Richard Harrow, who weighed 560 pounds and was known as "the quarter-ton man" died at Southend.

New Organ In Abbey

Installed At Cost Of Around Hundred Thousand Dollars

Radio fans who listened to the broadcast of the coronation of King George and Queen Elizabeth, May 12, enjoyed a much better musical program than the actual participants did at the time of King George V's coronation in 1911. Installation of a new hundred thousand dollar organ in the Abbey enabled the authorities to draw up a much more comprehensive musical program than at the last coronation.

The old Abbey organ, built 206 years, completely collapsed early last year.

Moon farming, the planting of seeds in accordance with certain phases of the moon, has absolutely no support from any scientific point of view, according to a report of the U.S. Department of Agriculture.

Three new-born leopard cubs were killed by their mother in Lincoln Park Zoo, Chicago. Attendants attributed the infanticide to an inextinguishable law of leopards—never to let their young be reared in captivity.

According To Leopard Law

New Scientific Finds

Were Discussed At Annual Meeting Of Virginia Academy

A new type of high speed rotor which spins freely in space, Dr. Fred T. Holmes of the University of Virginia said, may provide a new tool for medical research and studies of such fundamental things as the speed of light.

Addressing the annual meeting at Charlottesville of the Virginia Academy of Sciences, he described how for the first time it is possible to suspend the tiny top between two magnets which just overcome the pull of gravity.

Chemical houses made largely of the new products of organic chemistry were predicted by Dr. C. C. Curme, vice-president and director of research of the Carbide and Carbon Chemicals Corporation.

At present, Dr. F. B. Jewett, president of the Bell Telephone Laboratories, explained, the telephone voice has had to pass over a steel, physical circuit, that is, a pair of wires.

"Recently, however," he said, "thanks to the research laboratory, operating in a myriad of fields, an entirely different method of providing large numbers of channels has been achieved and the way opened to an unknown indefinite extension."

Seed Growers To Convene

Canadian Seed Growers' Association Meeting At University In Saskatoon June 24th To 26th

On the morning of Thursday, June 24th next, the annual meeting of the Canadian Seed Growers' Association will be convened at the University of Saskatchewan, Saskatoon, Sask. The party will be welcomed to the University by President W. C. Murray and a three day session of business and entertainment will follow. Residence accommodation is being provided in the University at very reasonable rates.

The writer of the following letter had a bad attack of rheumatism, and was advised to take Kruschen. He did so, and describes his experiences in the following words:

"About two years ago I developed a severe attack of rheumatism in my left shoulder blade. I tried all sorts of remedies, but with no results, until one day my brother-in-law, on hearing of my suffering, exclaimed, 'There is only one thing for rheumatism! That is—Kruschen Salts!'

I decided to purchase a bottle, and for the first week took a teaspoonful in a glass of hot water each morning. The pain gradually disappeared and has now gone entirely. I am still taking my early morning dose, as I feel convinced that it is helping to keep me fit."—J.G.B.

Rheumatic conditions are frequently the result of an excess of uric acid in the body. Two of the ingredients of Kruschen Salts are notable for their work in dissolving uric acid. Other ingredients of these Salts assist Nature to expel the dissolved acid from the system.

Interested in the use of pure variety seed will receive a hearty welcome to the University.

The entertaining part of the program will include visits to points of interest in the neighborhood of Saskatoon, and the farms of certain seed

growing nearby. It is expected that automobile trips will be made to the Dominion Experimental Station at Rothstein and to the farm of James Rugg of Elstow that will have special interest for farmers and a holiday trip to Lake Manitou at Rugg's Elstow. Ladies can participate in all the events and a special program is also being arranged for them.

Mr. F. W. Townley-Smith, Lashburn, Sask., is the president of the Canadian Seed Growers' Association; Mr. F. L. Dickinson, the United Grain Growers Limited, Winnipeg, Man., is the vice-president, and Mr. W. G. Wiener, Ottawa, Ont., is secretary-treasurer. The head offices of the association are located at Ottawa, Ont.

For any information concerning this meeting write to S. H. Vigor, Secretary, Branch, Canadian Seed Growers' Association, Room 146, Parliament Buildings, Regina, Sask.

Miss Cora Elliott was a guest of Mr. and Mrs. Strand over the week end.

Mr. Carl Hodge returned from the Hanna Hospital on Wednesday, May 12th.

School Inspector Jonason, of Berry Creek S. D. held a meeting for the teachers of the surrounding district at Cessford, on Wednesday. Miss Elliott, of Langford district attended.

Mr. J. E. Cooley moved on Wednesday from his house on Railway Avenue, to the one formerly occupied by Mr. C. W. Rideout.

Mrs. A. V. Youell and little Jimmy returned from Calgary after a week end visit.

Norman O'Malley who has been at Vulcan for the winter, returned home on Wednesday.

Miss M. Milligan who had an operation on her hand, had the stitches taken out this week.

Gibson Bros. of Owen, we are in the Chinook district this week buying cattle.

Miss A. Levick, of Sibbald, has been engaged to work in the Hotel.

Miss Jean MacIntosh, of Calgary, but formerly of Chinook, graduated as nurse from the Holy Cross Hospital on Tuesday, May 18th.

Miss Steckle, of Yonagus town was among the number of nurses in training whose name was among those who graduated on Tuesday, at the Holy Cross Hospital, Calgary.

Mr. and Mrs. P. Peterson, of Brooks, were Chinook visitors this week.

Royal Sponsors Gave Portraits

The Canadian Pacific, on land and sea, is proud of its close contact with Their Majesties, King George VI, and Queen Elizabeth, whose portraits grace two of the company's proudest possessions, the Royal York Hotel in Toronto and the 20,000 ton Atlantic liner Duchess of York. The illustration shows the autographed photograph of Their Majesties presented to the liner which was sponsored by Her Majesty and named for her. A similar portrait was presented to the huge Toronto hotelery.

Preservation Of Democracy

In these days of international strife and internal controversy, with protagonists of Fascism and Communism in the saddle in some countries and advocates of these and other isms striving to get the upper hand in other realms, the people of Western Canada have every reason to be thankful that they are citizens of a country where democracy reigns—a country in which the people themselves have the right to say what they want and in which the precious privileges of free speech and a free press still prevail.

Fears are frequently being expressed, however, that democratic countries are in danger of being overwhelmed by the fighting forces of dictatorial countries and that democracy is in peril of extinction. No doubt, there have been some grounds for such fears, but to-day the greatest danger to self-government comes from within rather than without.

It can be taken for granted that the great bulk of the people of this country are not prepared to surrender their liberties to any form of dictatorship, whether group or individual. The rights of free speech and freedom of action are cherished and there are few who would relinquish them in favor of benefits, imaginary or real, which would result from abandonment of the self-governing principle.

But if these rights and privileges are to be conserved, it is essential that the standard of education of the people be high and that they be of strong moral fibre, for in a democracy it is a sine qua non that the leaders of government must possess these attributes in high degree and it is also a fact that in these respects the leaders cannot be far in advance of the electorate who give them their authority or they will not be in office very long. So that in the final analysis the type of government that the people of a democracy get depends upon themselves and is no higher than they deserve. Hence, the importance of an enlightened, intelligent and unselfish electorate if democracy is to be preserved in an age of conflict between principles and desires.

This thought is very ably expressed by James Truslow Adams in the New York Times Magazine, as summarized by the Reader's Digest in the following words:

"Just as a despot may be benevolent or cruel, so a people which governs may be educated, wise, public spirited or the reverse" and, amplifying this idea:

"Both democracy and the vision of a very high standard of material living for all are new. Man is by nature selfish. He looks first to the good of himself, his family and his group or class, rather than to that of all. Pressure groups arise. If such groups learn, as they have done, to use the machinery of democratic government more rapidly than they develop the social and moral spirit, that can alone sustain democracy, it is far from unlikely that they may destroy the finances of the State, pull down the entire structure, and in the resulting chaos and distress be willing to give up the dangerous and difficult adventure of self-government to any man who will promise a false security."

"There is also the race, which may be lost, between education and the increasingly complex demands on government. Few, if any, are the citizens, with their own affairs to look after, who can hold really competent opinions on such diverse topics as, say, money, price regulation, labor, agriculture, foreign affairs. In so far as a pure democracy tends to make rubber stamps of its representatives and to play on their fears for favors demanded, it will tend to make costly and perhaps fatal mistakes."

After expounding the theory that democratic government is more inefficient than a dictatorship, Mr. Adams goes on to say:

"On the other hand, the condition—material and spiritual—of the peoples to-day under a Mussolini, a Hitler or a Stalin does not indicate that the wisdom of one promises better conditions for all than the folly of the many. In what totalitarian State," he asks, "are the all-round conditions for a contented, wholesome, free and full life better than they are in the Scandinavian countries, the British Empire and the United States?"

"There are, however, these and other insidious mental and moral problems for democracies as for individuals. A man who does not bother to educate himself, who writes only easy money regardless of the consequences to others, who declines to work if he can be supported by somebody else, who thinks he has a right to all he wants, who thinks only of claims and not of duties, and so on, is not likely to be a success. Neither is a democracy made up of such."

Food Prices Climbing

Bureau of Statistics Reports Increase in Living Costs

The cost of living is climbing. The general index of the cost of living for Canada, computed by the Dominion bureau of statistics, was 82.2 in April as compared with 82.0 in March.

The retail price index of foods rose from 75.7 in March to 76.3 in April. Considerable gains were reported for a wide range of foods, including butter, lard, flour, bread, sugar, tea, codfish and several meats, although moderate decreases occurred for eggs, corn, potatoes, marmalade, jam and coffee. There were no changes of any importance recorded for other budgetary groups.

The cathedral at Toledo, Spain, has a sacramental shrine 12 feet high embellished with 260 statues of solid gold. The largest of these was made from the gold which Columbus took to Spain after his first voyage of discovery.

The common house spider has six spinnerets, each of which is covered with tiny spinning spools, and out of these come jets of liquid silk, hardening instantaneously on exposure to air.

"Empress," an Indian elephant, served on both sides during the Civil War. Both the South and the North used her for hauling supplies at Nashville, Tenn.

Had To Be Right

But Affixing Name To Sales Slip Took Some Time

A gentleman had completed his purchases, and the clerk, in filling out the sales slip asked:

"What is the name, please?"

"Jepson," replied our hero.

"Chilpson?"

"No, Jepson. Sixteen twenty-one West—"

"Your first initial, please."

"Oh, K."

"O. K. Jepson."

"Excuse me, it isn't O.K. You didn't understand me; I said 'Oh.'"

"O. Jepson."

"No. Rub out the O, and let the K stand."

The clerk began to look haggard.

"Will you please give me your initials again?"

"I said K."

"Pardon, you said O. K."

"I said 'Oh.'"

"Just now you said K."

"Allow me to finish. I said 'Oh,' because I didn't understand what you were asking me. I didn't mean it was my initial. My name is Kirby Jepson."

"Oh."

"No. Not O, but K. Here, give me the pencil and I'll write it myself. There, I guess it's O.K. now."—Annapolis Log.

By actual test, handwriting in pencil requires nearly five times as much light to be legible as writing in ink.

Farm Machinery Business

Staging A Comeback In Western Canada After Many Years

After seven lean years, the farm implement business is picking up in Western Canada.

The prairie farmer is once again in the market and making long-overdue replacement of farm machinery. Implement company officials at Winnipeg said.

One major company reported 50 per cent. increase in sales in the first four months of this year compared with the same period last year. Other companies also reported considerable increases.

Prevailing high prices for wheat and optimistic crop conditions in Manitoba and parts of Saskatchewan and Alberta have led to the buying wave, it was stated.

The implement business has been in a slump since 1929 and for the past seven years farmers' demand for farm machinery in Western Canada has dwindled in face of poor grain prices, drought and general economic instability.

Special Type Of Glasses

Enable Wearer To Read Comfortably When Lying Down

"Reclining spectacles"—glasses for invalids and others who have to lie more or less flat on their backs and who wish to read—were shown to the public for the first time at the British Industries Fair.

These spectacles enable the wearer to see in more or less at right angles to the ordinary line of sight. They contain a pair of prisms, which project incoming rays of light in such a way that the wearer can read a book held comfortably at arm's length, resting on the waist—in a position where it could not be read at all, ordinarily, without raising the head from the pillow.

Corrective lenses for righting defects of eyesight in the usual way can be combined with the two prisms.—Science Service.

One Of Britain's Heaviest

Man Twenty-Four Years Old Weighs 448 Pounds

When Herbert Savage, of Rochester, England, who weighs 448 pounds, fell and broke his ankle, six men sent from the hospital had a hard time lifting him into an ambulance. At the hospital he was given for his first meal a boiled egg and two slices of bread and butter, the regular diet. His girth is nearly 80 inches. He wears a collar about two feet in length. For his age, 24, he is one of the heaviest men in Great Britain. Last year Richard Harrow, who weighed 560 pounds and was known as "the quarter-a-ton man" died at Southend.

New Organ In Abbey

Installed At Cost Of Around Hundred Thousand Dollars

Radio fans who listened to the broadcast of the coronation of King George and Queen Elizabeth, May 12, enjoyed a much better musical program than the actual participants did at the time of King George V's coronation in 1911. Installation of a new hundred thousand dollar organ in the Abbey enabled the authorities to draw up a much more comprehensive musical program than at the last coronation.

The old Abbey organ, built 200 years, completely collapsed early last year.

Moon farming, the planting of seeds in accordance with certain phases of the moon, has absolutely no support from any scientific point of view, according to a report of the U.S. Department of Agriculture.

WITH FRANCO'S VOLUNTEERS ON THE BASQUE FRONT

This photograph shows Franco's forces in Ochandiano after they had captured the town and wrecked the buildings. Note the armored cars on the left.

New Scientific Finds

Were Discussed At Annual Meeting Of Virginia Academy

A new type of high speed rotor which spins freely in space, Dr. Fred T. Holmes of the University of Virginia said, may provide a new tool for medical research and studies of such fundamental things as the speed of light.

Addressing the annual meeting at Charlottesville of the Virginia Academy of Sciences, he described how for the first time it is possible to suspend the tiny top between two magnets which just overcome the pull of gravity.

Chemical houses made largely of the new products of organic chemistry were predicted by Dr. G. C. Curme, vice-president and director of research of the Carbide and Carbon Chemicals Corporation.

At present, Dr. F. B. Jewett, president of the Bell Telephone Laboratories, explained, the telephone voice has had to pass over an actual, physical circuit, that is, a pair of wires.

"Recently, however," he said, "thanks to the research laboratory, operating in a myriad of fields, an entirely different method of providing large numbers of channels has been achieved and the way opened to an unknown indefinite extension."

Lady Shaughnessy Dies

Was Widow Of One Of The Founders Of The Canadian Pacific Railway

Dowager Lady Shaughnessy, widow of Rt. Hon. Lord Thomas George Shaughnessy, one of the founders of the Canadian Pacific Railway Company, died in Montreal after a brief illness. She was in her 86th year. Lady Shaughnessy, whose husband died in December, 1923, had been ill only four days. A daughter of N. Nagle, of Milwaukee, Wis., she was married in 1880 to the Irish railway pioneer, who received a knighthood from King Edward in 1901.

For many years Lady Shaughnessy was active in social and charitable work, but since her husband's death had lived in retirement at her big Peel street residence.

Survivors include a son, Lord Shaughnessy, visiting in London with his daughter, and two daughters, the Hon. Margaret Shaughnessy and Hon. Mrs. R. M. Redmond.

SELECTED RECIPES

CHOCOLATE SOUFFLE

Temperature: 325 degrees F.
Time: 45 minutes.
2 squares unsweetened chocolate
½ cup sugar
3 eggs
2 tablespoons butter
1 tablespoon Benson's Corn Starch
¼ cup milk
¼ teaspoon vanilla

Method: Melt chocolate in top of double boiler; add ¼ cup sugar and beaten egg yolks. Stir and cook until smooth. Melt butter; blend in Benson's Corn Starch and let bubble 2 or 3 minutes. Add cold milk; stir and cook until sauce is smooth. Combine two mixtures and let stand until at room temperature. Stir in the egg whites adding reserved ¼ cup sugar. Fold into the chocolate mixture. Add vanilla. Sift Benson's Corn Starch over the bottom of an ungreased casserole; pour in soufflé mixture. Bake in slow oven until light and delicately browned. Serve at once with "Crown Brand" sauce.

According To Leopard Law

Three new-born leopard cubs were killed by their mother in Lincoln Park Zoo, Chicago. Attendants attributed the infanticide to an inexorable law of leopards—never to let their young be reared in captivity.

Seed Growers To Convene

Canadian Seed Growers' Association Meeting At University In Saskatoon June 24th To 26th

On the morning of Thursday, June 24th next, the annual meeting of the Canadian Seed Growers' Association will be convened at the University of Saskatchewan, Saskatoon, Sask. The party will be welcomed to the University by President W. C. Murray, and a three day session of business and entertainment will follow. Reside accommodation is being provided in the University at very reasonable rates.

F. W. TOWNLEY-SMITH
President

The Hon. J. G. Taggart, Minister of Agriculture for Saskatchewan, will be present and will address the gathering.

The subjects to be discussed at the meeting will include the new rust resistant wheats, the treatment and control of plant diseases which affect the cereal grains, and other questions bearing on the work of the C.S.G.A. Prominent speakers are being invited to give addresses and lead in the discussions.

Several years ago a branch of the Canadian Seed Growers' Association was organized in Saskatchewan, and the officers of this branch, together with local committees appointed for the purpose, are sparing no effort to arrange an interesting, instructive and enjoyable time for those who can attend the meetings. All those in-

Change Of Work

High officials of the German propaganda ministry changed pens for picks and spades to break rocks. A decree ordered those who have spent their time signing state documents to lend a hand to road workers for two months or work as coal trimmers and hod carriers and live on wages paid such laborers.

Crests and mottoes technically are battle symbols and war cries.

Well-cured ham usually is best when it is one year old.

HIS RHEUMATISM LEFT HIM

Sufferer Follows Good Advice—and Takes Kruschen

The writer of the following letter had a bad attack of rheumatism, and was advised to take Kruschen. He did so, and describes his experiences in the following words:—

"About two years ago I developed a severe attack of rheumatism in my left shoulder blade. I tried all sorts of remedies, but with no results, until one day my brother-in-law, on hearing of my suffering, exclaimed, 'There is only one thing for rheumatism! That is—Kruschen Salts!' I decided to purchase a bottle, and for the first week took a teaspoonful in a glass of hot water each morning. The pain gradually disappeared and has now gone entirely. I am still taking my early morning dose, as I feel convinced that it is helping to keep me fit."—J.G.B.

Rheumatic conditions are frequently the result of an excess of uric acid in the body. Two of the ingredients of Kruschen Salts are notable for their work in dissolving uric acid. Other ingredients of these Salts assist Nature to expel the dissolved acid from the system.

Interested in the use of pure variety seed will receive a hearty welcome to the University.

The entertainment part of the program will include visits to points of interest in the neighborhood of Saskatoon, and the farms of certain seed

W. T. G. WIENER
Secretary-Treasurer

growers nearby. It is expected that automobile trips will be made to the Dominion Experimental Station at Rosthern and to the farm of James Rugg of Estlow that will have special interest to farmers, and a holiday trip to Lake Manitou at Watrous is also being planned for June 26th. Ladies can participate in all the events and a special program is also being arranged for them.

Mr. F. W. Townley-Smith, Lashburn, Sask., is the president of the Canadian Seed Growers' Association; Mr. F. L. Dickinson of the United Grain Growers Limited, Winnipeg, Man., is the vice-president, and Mr. W. T. G. Wiener, Ottawa, Ont., is secretary-treasurer. The head offices of the association are located at Ottawa, Ont.

For any information concerning the meeting, write to S. H. Vigor, Secretary, Sask. Branch, Canadian Seed Growers' Association, Room 146, Parliament Buildings, Regina, Sask.

Zinc Added To Insulin

Tends To Slow Down Its Action In Body

Sir Frederick Banting of the University of Toronto, discoverer of insulin as a remedy for diabetes, told scientists at Pittsburgh, for dedication of Mellon Institute's new building, that zinc is being added to insulin to slow down its action.

Sir Frederick explained pure insulin is too quickly absorbed by the body, necessitating, in some cases, several doses daily.

The zinc treatment, he said, slows the action, but added:

"It is too early to speak of the clinical value of this form of insulin."

Asked if he could vision a world free of disease, Sir Frederick replied: "Free of infectious diseases, yes. But as we conquer them new diseases of an organic nature come to light. Heart trouble, for instance, and many others brought on by our complex civilization."

Has Many Surfaces

A road recently laid in Birmingham, England, cost approximately \$25,000. The road is only two-thirds of a mile long and has in it materials ranging from cast iron, wood, and rubber, to concrete with cork-filled floors. The road has 32 different surfaces.

"You never take the slightest interest in anything I do," sobbed the young bride.

"Now don't be unreasonable darling," said the new husband. "All last night I lay awake wondering what you had put in that cake you made yesterday!"

The Franciscan monks own the garden of Gethsemane.

THIS BACKACHE IS AGONY!

KIDNEYS WILL CAUSE IT!

Sluggish kidneys let poisons accumulate in your system. Lame back, lumbago and rheumatism are the result. The pills will give the kidneys the help they need to filter out the poisons that cause the pain. Prove their merit through their use!

GIN PILLS FOR THE KIDNEYS

THE YELLOW BRIAR

A Story of the Irish on the Canadian Countryside

By PATRICK SLATER

By arrangement with Thomas Allen, Publisher, Toronto.

CHAPTER V.—(Continued)

Up at Bradford and Cooletown, where he had worked three years for the Stoddards, the family had been worldly Episcopalians, who thought themselves some snuff. You understand? They had pewter and flatware, and none but the help ate in the kitchen. Such landed gentry kept a bird man in his place. And the other young people in the district were also snuffily-minded, and indulged in dancing and card playing, which were abominations to the godly discipline of the Methodist Connexion. The result was that young Marshall withdrew himself from such temptations of the flesh, and had spent his evenings reading the Bible and reflecting on The Commentary and Critical Notes by Adam Clarke, L.L.D., F.S.A., etc.

So prospects did not look any too bright for finding a wife for William. But finally so happy a thought occurred to Mrs. Marshall that her fingers hesitated for a moment in their ceaseless knitting.

"Willie," said his mother, as she ran a knitting needle through her hair, "you might do worse than go down to Toronto and ask for John Trueman's Nancy."

Mrs. Marshall's maiden name was Cohain; and she was a distant cousin of Sarah Trueman. The son felt a religious impediment to marrying a tavern keeper's daughter, and into the Established Church.

"Aye," advised his father sagely, "Aye, my son, to get the right kind of a wife, go to a house that has a good mother."

So having tidied himself up to look respectable, young William drove off down Yonge Street with his father's team, and arrived the next day morning at the Tavern Tyrone. The great, rough lump of a man was warmly welcomed by Mrs. Trueman, who thanked his mother kindly for the nice firkin of butter. Young Marshall wore a suit of dark-colored homespun, head-clothed in a shabby, broad-brimmed, grey felt hat, which he had borrowed for the occasion.

Of course, he would be stopping for dinner. Yes, and he might be lodging over Sunday. Himself and the young man adjourned to the tap room, and fell into the heavy labored conversation of two males, related by marriage, who are anxious to seem friendly to one another, but are racking their brains to talk about something in common.

"It's hoarse you are, Willie," Mr. Trueman remarked, after the weather had been talked out. "I'm thinking you've got what is called a Methodist cold." And he winked his far-off eye.

"Well, sir," said William, in his slow, deliberate way, "I am an adherent of the Wesleyan Connexion, but I never heard tell of that sort of a cold."

"Hat 'Ha!" explained himself, with his chuckle, "that's the hoarseness the saddle-bag itinerants get with their roaring and noisy preaching."

In John Trueman's opinion, the Methodists were worse than the black-mouthed Presbyterians.

How To Overcome Piles And Rectal Soreness

As they strolled up Bay Street, past Dooley's brewery, she took his calloused hand, and turned facing him squarely.

"Of course, William," she told him, "I know you would be kind and good to me; but a woman needs a little soreness or painful passage of stool, is nature's warning and proper treatment about secured at once. For this purpose get from any druggist a package of **Leucogen** and use as directed. This formula, which is used internally, quickly relieves the itching and soreness and aids in healing the rectal area. **Leucogen** is a physiological prescription and is highly recommended. It is easy to use and does not require a doctor's attention. It is a safe remedy to use in any case. It may be had at such a reasonable cost.

A long pause followed that thrust. "So they tell me, Willie," Mr. Trueman resumed, after a patron and slipped in to wet his whistle with a touch of bitumens, "that you have taken up a farm in King Township."

"No, sir," William replied, "but I have started to break a farm in Mono Township, back up over Silgo Hill."

"Ah! yes, indeed! And have you a house built, William?"

"My brother Maxwell helped me take off a little crop this summer; and we have just finished putting up a small log house."

Himself considered the matter. "I suppose, Willie," he suggested, after reflecting, "you will be looking for a wife next?"

"Well, now, Mr. Trueman," the young man replied promptly in his throaty voice, "that is what brought me to Toronto. I thought perhaps I might ask for one of your daughters."

Himself smiled alyly, as he tossed his head up.

"Oh ho!" said father, "it's to the girls' mother you'll have to be speaking about that, Willie."

"I shall perhaps have occasion to do so this afternoon, sir," replied the serious-minded young man; and he slipped off down to King Street to buy a copy of "The Life of Wesley," by Coke and Moore.

Ah, what a lively commotion then arose in the Trueman household! The eldest daughter, Nancy, was a girl of seventeen, and a buxom, hearty young thing she was, blooming out into womanhood. Himself had recently caught Miss Nancy stepping out with a soldier man from the fort. It is that way, always, in a garrison town:

Around the corner, beneath a tree, The Sergeant Major made love to me. He kissed me once; he kissed me twice! It wasn't the proper thing to do, But oh! it was so nice.

Himself had dusted the young lady's back smartly, after the approved fashion of Irish Irish fathers, such a job had he made of it that the mother had been salving the welts on Nancy's back for days afterward. And for a week's time, now, Miss Nancy Trueman had been confined strictly within the limits of her father's premises.

No sooner had William Marshall stepped out the door than the wife and daughter were called to a hasty conference in the sitting-room of the Tavern Tyrone. Himself informed them that Nancy would straightaway marry the decent, respectable young man, and go up-country with her husband.

"But, John, dear," his wife cautioned him, "the young man has not even looked at the girl yet!"

"She's too good looking, damn it," declared John, "for a tavern keeper's daughter on Queen Street."

To be treated like a chattel, thus; and thrown into a young man's arms as from an auction block was altogether too much for Nancy's nerves. Her temper dissolved in a flood of angry tears.

"Bu-hug!" bawled the girl, struggling for breath, "and I've never seen the clod-hopper myself!"

"Now, my love, treat the young man real gracious!" urged the mother. "You might like him, after all . . . if he has you."

There was roast beef and Yorkshire pudding for dinner that day at the Tavern Tyrone, and Miss Nancy was a sweet, demure young thing. She was wearing Mamma's gold locket and chain. So William had occasion to speak to Mrs. Trueman privately. And the good woman was greatly surprised—of course.

She thought the girl was very young, but then, of course, yes, of course! Nancy should consider the matter.

So Miss Nancy stepped out that afternoon to show William the might of the town. Poor William, prouder was he nor ten peacocks! To his simple fancy her cheeks had a bloom as fresh as the apple. The wife-hunting country boy was fair bewitched; and from the secret places in his heart that had never been tapped before, he poured out on the young girl's ears all his hopes and fears of things present and to come, how little gear he had, how much he needed her, and how much he needed her. Nancy felt sorry for the simple, awkward, honest, hard-working boy.

As they strolled up Bay Street, past Dooley's brewery, she took his calloused hand, and turned facing him squarely.

"Of course, William," she told him, "I know you would be kind and good to me; but a woman needs a little soreness or painful passage of stool, is nature's warning and proper treatment about secured at once. For this purpose get from any druggist a package of **Leucogen** and use as directed. This formula, which is used internally, quickly relieves the itching and soreness and aids in healing the rectal area. **Leucogen** is a physiological prescription and is highly recommended. It is easy to use and does not require a doctor's attention. It is a safe remedy to use in any case. It may be had at such a reasonable cost.

On arriving home, Miss Nancy

for BRUISES

There's nothing to equal Minard's! It takes hours! Antiseptic, soothing, healing. Gives quick relief!

MINARD'S "KING OF PAIN" LINIMENT

bolled upstairs in a bound, and slammed the bedroom door. Himself and the wife hurried up after her to see what the matter was. The girl was sprawled on the bed with her face buried in a pillow. She was sobbing in noisy sobs, and carrying on most distressfully.

"Oh! Mama!" she sobbed, "you'll not let them marry me off to a poor, clumsy farmer, will you?"

" . . . And send me to live in a hut in the bush!"

"And no furniture!" she wailed, "and only one room in the shanty!"

"But, Nancy dear," urged her distressed mother, "think of all the bedding and linen you have trucked that you can take with you . . . yes, and the tableware . . . the drawn linen tablecloths . . . and . . ."

"And no bed to put them on!" bawled Nancy, " . . . and no table for the tablecloths!"

"Hur-umph! Hur-umph!" expostulated himself, tossing his beard, "I'll have you know, young woman, that John Trueman will supply his daughter, on her marriage, with suitable household furniture complete!"

And downstairs the good man stormed in high indignation.

Mrs. Trueman stayed to calm her daughter, who was sobbing and grunting into her pillow in a noisy way. There was a speedy lull in the tempest, followed by a complete asphyxiation. Then Miss Nancy looked up from her bed of sorrow with a saucy glint in her eyes.

"Do you think, Mother dear,"—and Nancy's voice was always clear and low—"I could get that husband of yours to throw in a couple of cows . . .?"

"And of course, Nancy Trueman was truly and sincerely in love. A woman, as you know, does not have to fall in love. By one of the inexplicable laws of her being, a woman is always in love, and is as full of love as a nut is full of meat. A man must find a tangible object for them before his affections are aroused, but a woman's love can flourish and abound in a dreamland all her own. It is as much a matter of chance that her affections settle upon a particular man as that swarming bees cluster on a particular limb of a tree. It is not the limb that causes the swarm, nor the man that makes a woman love."

So John Trueman felt young Marshall was a veritable goddess; and that it was his fatherly duty to subdue his daughter Nancy's will to a like way of thinking. And he was a steadfast-minded man, who stood firm and set in his purposes. The girl kept her chamber that Saturday afternoon and evening. Himself gave strict orders that if she abide there it be on an empty stomach. The mother kept a silent counsel, and moved quietly about the house, as subdued and repressed as any dutiful wife. William Marshall came in full of life. William Marshall came in full of life. William Marshall came in full of life.

On Sunday morning the Trueman sat down with considerable dignity to the family breakfast table. Miss Nancy was there, looking a trifle pale, but her appetite was in good condition.

(To Be Continued)

Some More Figures

An enterprising British washing machine company has figured out that on "wash day" every housewife lifts 6,456 pounds and her arm travels six and one-half miles while ironing the weekly wash. In ironing seven shirts alone she lifts a 3½-pound iron 140 miles, or a total of 490 pound-miles.

A Giant Hollyhock

A hollyhock standing 11 feet high was grown on the farm of L. N. Henderson in the Nut Mountain district, according to an item in a Kelvington, Sask., weekly newspaper. Mr. Henderson has threshed 110 bushels of oats to the acre, the report said, indicating fertile soil of that area.

Volting methods among the ancients include showing hands, striking weapons upon shields and taking position to the right or left of a line.

The excavator in Leicester square underground station is 161 feet long, the longest in the world. 2205

Fairly Well Fixed

Salaries Of The Dictators In Europe Are Adequate

Wealthiest dictator Benito, is marked down for £1,050 on Italy's annual pay-roll. His salary comes from the post of premier. For the four other ministerial posts he holds, Mussolini asks no reward, but as Minister of the Interior he controls a special fund out of which his chauffeurs, secretaries, bodyguards are paid.

Il Duce has his plump fingers in other pies. Mussolini owns a big faculty paid writers, sells his writings and speeches all over Italy in deluxe editions.

The widely circulating, well stocked, although advertisement rates are high, Popolo d'Italia is sole property of Mussolini. It was started by his dead brother Arnaldo.

Wealthy Mussolini never carries any money. When there is any gift or money distributing to be done, a secretary hands out the necessary.

A non-smoker, non-drinker and vegetarian, the Duce spends little on himself, satisfies only his craze for speed.

Friend Adolf Hitler refuses to accept any annual salary (£4,080), draws only the late President's allowance for "entertainment."

Kept very quiet is the Fuhrer's private income. It comes from a pensioning of the Nazi Party's publishing business.

His book, "Mein Kampf," which has sold a million and a half copies in Germany, continues to sell since the State presents each newly married couple with a copy.

Australia's Kurt von Schuschnigg has only his official salary, £1,140, has no allowance for expenses or entertainment.

When these are necessary the Austrian Treasury stamps out, has never been known to balk yet.

Joseph Stalin, who dictates to the largest territory of all, has the smallest salary, £600.

Clothes, food, motor cars, doctors, town and country homes are provided by the state.

Would-be dictator General Francisco Franco gets a mere £472 a year as general of a division, supplemented by grants that go with his numerous decorations.

Poland's Marshal Edward Smigly-Rydz draws £2,260 from the national till.

Highly efficient successor to his old friend Marshal Jozef Pilsudski, he gets paid for being Marshal of Poland, has no other office, no other income.—From Cavalcade.

Russia's New Canal

Puts Moscow In Water Communication With Three Seas

Just as digging of the Panama Canal divided North from South America, the Russians now have divided Europe from Asia by the Moscow-Volga Canal, which has been inaugurated by Joseph V. Stalin, Premier Kalinin and others. The canal puts central Russia on a great island in inland waterways, and Moscow in water communication with three seas—the Caspian, White and Baltic.

Travelers now can go from the Arctic Ocean to Persia without leaving their steamships. Eventually they can also reach the Black Sea and the Mediterranean over this inland waterway net, which is to make Moscow a "port" of five seas.

The Moscow-Volga Canal, 128 kilometers in length, brings the headwaters of the mighty Volga flowing past the Kremlin through a series of locks, sluices and an inland lake called the "Moscow Sea," lying just to the north of the capital. The Soviets are immensely proud of its completion—a project comparable in size with the digging of the Suez and Panama Canals—in only four and a half years. This was possible through the use of prison and labor troops.

These laborers were under direction of the OGPU.

Dust Storms On Mars

Astronomers are not sure, but they think Mars is being troubled with dust storms this spring, the same as western Canada and the "dust bowl" of the United States. Griffith observatory officials, at Los Angeles, have been studying through their telescopes what appears to be one big disturbance and several smaller ones—possibly "dusters" worse than those in North America.

Pool Soil Yields Riches

Lhor, Germany, is boasting how it has made poor soil, unsuited for agriculture, yield riches. The land was first planted thickly with oak. After 20 years it was unplanted with beech, which acts as a nurse tree for the oak to bring it to maturity. The oak is being marketed, and brings the highest price of any in Europe.

Russian Watch Industry

Soviets Believe Many People Would Buy Cheap Type

Soviet Russia believes that all of Asia and a good deal of Europe will buy watches if a cheap type of watch can be brought within their reach. The first stage in the Soviet watch industry of the future is to be a factory at Samara on the Volga, where 10,000 workers are expected to be employed. To try their hands at training the Russians, thirty Swiss watchmakers and their families have just reached Samara from Le Locle and La Chaux de Fonds, the main watchmaking centres in the canton of Neuchâtel.

In these mountain towns, tucked away in one of the Jura valleys, watchmaking is a family trade handed down from generation to generation by the watchmakers' schools. Both Le Locle and La Chaux de Fonds have suffered severely from the slump, and even the change-over of some of the factories to the manufacture of wireless sets has failed to absorb the unemployed. Now that thirty skilled men have left to start the Russian watch industry, others are preparing to follow.—New York Times.

The Cinque Ports

Lord Willington, Former Governor-General of Canada, Is Lord Warden

Lord Willington, former governor-general of Canada and vicerey of India, was present at the Coronation both by reason of his rank and as being lord warden of the Cinque Ports, an office he has held since his return from India last year.

The Cinque (Five) Ports were originally Dover, Sandwich, Hastings, Romney and Hythe, and their origin probably goes back to Roman times. William the Conqueror appointed a warden to have jurisdiction—civil, military and naval—over the whole of this area, which was charged with the duty of providing shipping for the state. Nowadays the lord warden still exercises a certain maritime jurisdiction, and has a residence in Walmer Castle and the office is considered one of considerable dignity.

The late Marquis of Reading held it prior to Lord Willington.

Only One In Canada

Negress Distributed Mail In District Near Harrow, Ontario

Probably the only Negress mail carrier in Canada, Mrs. Maude L. Crayner, Harrow, Ontario, who serves three kings in distributing His Majesty's mails, has retired after 24 years of service. She served George V., Edward VIII. and George VI. She began by helping her husband, now dead, and believes she would still be on the job, but when the contract for the Harrow route was let, her successor submitted a lower tender, which was accepted.

The United States army is now the 17th largest in the world. Russia leads all countries in size of army.

The machine gun first was patented in 1862 by R. J. Gatling, Indianapolis, Ind.

Cut Down Food Wastage

—by covering all perishable goods with Para-Sani Heavy Waxed Paper. Para-Sani moisture-proof texture will keep them fresh until you are ready to use them.

You'll find the Para-Sani sanitary knife-edged carton handy. Or use "Centre Pull" Packs in sheet form for less exacting uses. At grocers, druggists, stationers.

HAVE YOU Stomach Upsets?

If you are troubled with indigestion, gas, sour stomach, heartburn, if you are weak and lack appetite, try Dr. Pierce's Golden Medical Discovery now. It stimulates the appetite, improves the action of the stomach, makes the food digest better. Read what Mrs. B. B. B. of Boston, Mass., has to say: "After an illness I felt very weak, had no appetite and suffered from indigestion. After eating I would get so bloated and frequently had heartburn. I used Dr. Pierce's Golden Medical Discovery and it was wonderful. It improved my appetite and helped to drive away the stomach discomfort. It seemed to build a right up." New size, 10c, 20c, 50c, 1.00.

Little Help For This Week

Set a watch O Lord before my mouth; keep the door of my lips. Psalm 141:3.

What, never speak an evil word, Or rash, or idle, or unkind; O how shall I most gracious find?

When we remember our temptations to give way to disappointment or irritation, and how hard a thing it is from day to day to meet our fellow-men, our neighbors, or even those of our own household without showing signs of impatience, with only kindly feeling finding expression and ungenial feeling, inwardly at least, kept imprisoned, then we shall be ready to acknowledge that the man who has attained mastery of himself under all circumstances is fashioned upon the style of the Perfect Man.

Seal Skins Were Seized

Customs Officials At Victoria Claimed They Bore Bullet Holes

Canadian customs officials at Victoria held 46 seal pelts bearing what they declared were bullet holes.

Indians are permitted to kill the animals using bow and arrows, spears or clubs but use of guns is prohibited except to United States government-sponsored seal hunters under the pelagic treaty between Great Britain, United States and Japan.

The skins were confiscated when they arrived on board the steamer Princess Maquima. They were consigned to a Vancouver firm from Uchelet, a northern British Columbia port. Value of the pelts was not disclosed.

J. A. Motherwell, chief inspector of fisheries at Vancouver, recently received orders from Ottawa to keep a close watch for seal killed in contravention of the sealing treaty.

The Profits

A lawyer was assisting two men in drawing up articles of partnership. The lawyer went through the documents before the final signing, and suddenly said: "But there is no mention of fire or bankruptcy; these must go in."

"Quite right," said the partners, speaking at once. "Put them in; but the profits are to be divided equally in both cases."

About 520 muscles are used in moving the human body.

THE CHINOOK ADVANCE

Published by Mrs. M. C. Nicholson every Thursday afternoon from The Advance Building, Main Street, Chinook, Alberta, and entered in the postoffice as second class mail matter.

The subscription rates to The Advance are \$1.50 per annum in Canada and \$2.00 outside of Canada.

The transient advertising rates in The Advance are—display, 40c per inch for first week and 30c for each succeeding week, providing no change is made. For heavy composition an extra charge is made for first week. Reading notices, 10c per count line. Legal advertising, 15c per count line for first week and 10c for each succeeding week. Cards of thanks, \$1.00.

Advertisements under this heading are charged at the rate of 50c for 25 words or less per week, with 10c for each additional 5 words. Three weeks for the price of two.

All letters addressed to the editor for insertion in The Advance, must be signed to show bona fides of the writer. Publication in all cases is subject to the judgment of the Publisher. We do not necessarily coincide with views expressed.

DUST STORM DOES DAMAGE IN STRATHMORE DISTRICT

With the fury of a tropical hurricane, terrific winds swept in from the northeast, Tuesday evening, cutting a 20-mile swath of destruction in the Strathmore district, 30 miles east of Calgary. Crops were seriously damaged. Farmers watched helpless as outlying buildings were caught up and carried to other parts.

Buildings were ripped out and the matchless cover fields denuded of seed by the fury of the storm.

Collholme M. D. Held Meeting

A meeting of the Council of the Collholme M. D. No. 243 was held in the Collholme School at 2 o'clock in the afternoon of May 1st, 1937. REEVE and Councillors Stewart, Warren, Laughlin and Paetz were present.

Stewart—That the minutes of the meeting of April 3rd 1937 be adopted as read.

Stewart—That the minutes of April 14th, and minutes of April 19th, inst. be accepted as read.

Stewart—That the investigation re Frank Savers is not satisfactory and that the Council is of the opinion that Mr. Savers should have paid all living expenses and threshing etc. and kept sufficient for running expenses before he paid the Bank, and we therefore refuse to pay the coal account.

Stewart—That this Council does not see its way clear to pay for, or supply Seed Grain to farmers moving to the north country.

Paetz & Laughlin—That this Council will allow 10 per cent to the Hudson Bay Co. if they pay their current taxes before June 1st 1937.

Paetz—Whereas the estimated expenditure for the Municipal District of Collholme No. 243 for the year 1937 is \$7331.36, as per estimated in detail fully recorded and whereas the total valuation of assessable property within the district as shown by the assessment roll is as follows \$947,510. Therefore be it resolved that the Secretary Treasurer of the said Municipal District is hereby authorized to raise the said amount by levy upon all rateable property therein a rate of 8 mills to meet the said estimated expenditures.

Warren—That anyone rolling wire without the permission of the Council, proceedings will at once be taken.

Stewart—That the following ratepayers be pound keepers, the pounds to be as the following places:

Davis W. H. on Sec. 38-28-7-W 4thm
Robison G. Ray S. E. 5-27-7-W 4thm
Roy Eben Sec. 36-27-9-W 4thm
Savage O. Y. Sec. N. W. 14-26-9-W 4thm

Stewart—That all accounts presented by the Secretary for Seed Grain be paid as soon as possible.

The Alberta Wheat Pool, Pioneer Grain Co., Provincial Government.

Warren—That all fuel applications as presented by the Secretary be approved and forwarded to field man for his approval.

Youngstown, May 18th. Caught red handed and detained while in act of stealing fence wire from a farm south west of Chinook, two youths who gave their names as Victor Roper and Jack McPhee, were sentenced to three months imprisonment.

On Monday the Chinook district had a fairly good rain, Tuesday and Wednesday the wind and dust blew, (today) Thursday, at 1:30 p.m. started to rain. Let's hope it may continue.

Runaway Damages Trees, Sidewalks

YOUNGSTOWN, (Special)—Trees were broken off and sidewalks damaged here Friday night when a runaway team and wagon careered through streets, over sidewalks and through vacant lots. The runaway's career was abruptly ended by Constable E. Hunter after the wagon had been wrecked by bumping into the steps of the Nazarene church. The team was owned by H. McFarlane.

Mrs. Millican who has been at the home of the Robinson Bros, went to the Rearville district where she will visit with her sister, Mrs. F. N. Mason.

Mrs. Lloyd Robinson's mother from Trail, British Columbia, arrived here Thursday morning and will visit with her daughter for a time.
